

CONFIDENTIAL SERVICES

Confidential Services encompass any situation where your needs require a private and discrete assessment to situations that are questionable, not developing properly, or under suspicion by your club, restaurant, or other property.

My review can be conducted discretely during normal business hours, or after hours under complete closure to review business practices, accounting and invoicing processes, maintenance work, documentation procedures, security of inventory, abnormal loss of goods, or any other service needs in establishing full disclosure of the inquiry.

I do not offer allegation services. Anything uncovered contrary or not to common methods and operational procedures will include my presentation of only factual material to show the procedures discovered. Any determination of wrongdoing is solely the responsibility of the client.

In many cases, uncovering failures in practices and procedures by staff, management, and even outside vendors is a condition of poor and improper training. My services include my ability to train in deficiencies that are uncovered.

To begin the process, send an email RE: CONFIDENTIAL: to jim.lopolito@gmail.com, or, call directly to 845-238-8131
